General Policies – 570.200**

Note: HUD's Title 24 Part 570's parts explaining eligibility of activities are summarized in this document to provide guidance to Franklin County CDBG Program applicants.

The primary objective of the CDGB Program is the development of viable urban communities, by providing decent housing and a suitable living environment, and expanding economic opportunities, principally for persons of low and moderate income.

Funds must be used to carry out activities that will meet one of the three broad National Objectives: benefit low- and moderate-income persons; aid in the prevention or elimination of slums or blight; or meet other community development needs having a particular urgency. At least 70 percent of the total CDBG funds expended must be used for activities that benefit low and moderate-income persons, over a one-, two-, or three-year period (selected by the grantee).

I. Basic Eligible Activities – 570.201

1.) Acquisition

Acquisition in whole or in part by purchase, long-term lease, donation, or otherwise, of real property for any public purpose.

2.) Disposition

Disposition of real property acquired with CDBG funds through sale, lease or donation, or otherwise; or its retention for public purposes.

3.) Public Facilities Improvements

Eligible facilities include those serving persons having special needs such as homeless shelters; convalescent homes; hospitals; nursing homes; battered spouse shelters; halfway houses for run-away children; drug offenders or parolees; group homes for the developmentally disabled; and temporary housing for disaster victims. In certain cases, non-profit entities and sub-recipients may acquire title to public facilities; when owned by non-profit entities or other such sub-recipients, such facilities must be operated so as to be open for use by the general public during all normal hours of operation.

Activities may include:

- Design features and improvements that promote energy efficiency; and
- Architectural design features and treatments intended to enhance the aesthetic quality of facilities and improvements.

4.) Clearance/Demolition

Clearance demolition, removal of buildings and improvements, and movement of structures to other sites. - Providing credit and financial support, for the establishment, stabilization, and expansion of microenterprises;

- Providing technical assistance, advice, and business support services to owners of microenterprises and persons developing microenterprises; and
- Providing general support, including peer support programs, counseling, childcare, transportation and other similar services to owners of microenterprises and persons developing microenterprises.
- The provision of technical assistance to public or non-profit entities to increase their capacity to carry out eligible neighborhood revitalization or economic development activities, provided the recipient determines, prior to the provision of the assistance, that the activity for which it is attempting to build capacity would be eligible for CDBG assistance; and the National Objective claimed by the grantee can reasonably be expected to be met once the entity has received the technical assistance and undertakes the activity.

A CBDO may also be determined to qualify as an eligible entity if the recipient demonstrates to the satisfaction of HUD, through the provision of information regarding the organization's charter and by-laws, that the organization is sufficiently similar in purpose, function, and scope to those entities otherwise qualifying.

2.) Eligible CBDO Activities

CDBG funds may be provided as grants or loans to any CBDO qualified to carry out a neighborhood revitalization, community economic development, or energy conservation project. iii. STATEMENT OF INELIGIBLE COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM ACTIVITIES - 570.207

Note: HUD's Title 24 Part 570's parts explaining ineligibility of activities are summarized in this document to provide guidance to Franklin County CDBG Program applicants.

The general rule is that any activity that is not authorized under the provisions contained in this document is ineligible to be carried out with CDBG funds. This part provides guidance in determining the eligibility of other activities frequently associated with housing and community development.

- I. The following activities may not be assisted with CDBG funds:
 - A. The government building used for the general conduct of government, except for the removal of architectural barriers.
 - B. General government expenses, (except as noted in the subpart or under OMB Circular A-87).
 - C. Political activities (partisan).
- II. The following activities may not be assisted with CDBG funds unless authorized under Parts III and IV (Eligible rehab and preservation; special economic development)
 - A. Purchase of equipment
 1. Purchase of construction equipment is ineligible; but lease, depreciation, use allowances (See OMB A-21, A-87, A-122) are eligible. Purchase of equipment for solid waste disposal facility is eligible.
 2. Fire protection equipment is considered for this purpose to be an integral part of a public facility and thus, purchase of such equipment is eligible (570.201).
 3. The purchase of equipment, fixtures, motor vehicles, furnishings or other personal property not an integral structural fixture is generally ineligible, except when it is necessary for the administration of CDBG-assisted activities, or as part of a public service.
 - B. Operating and maintenance expenses related to public facilities. The general rule is that any expense associated with repairing, operating or maintaining public facilities, improvements and services is ineligible. Specific exceptions to this general rule are operating and maintenance expenses for public services activities, interim assistance, and office space for CDBG staff. Examples of ineligible operating and maintenance expenses.
 1. Maintenance and repair of streets, parks, playgrounds, water and sewer facilities, neighborhood facilities, senior centers, centers for handicapped, parking and similar public facilities. Normally, activities will be considered maintenance if they will reoccur on a regular interval (will need to be repeated within five years).

2. Filling of pot holes in street, repairing sidewalk cracks.
 3. Salaries, utility costs, etc. for operation of public works and facilities.
- C. New housing construction or for any program to subsidize or finance new residential construction.
1. As provided under last resort replacement housing provisions set forth in 24 CRF, Part 42.
 2. When carried out by a subrecipient pursuant to part V,A,(2). Activities to support preliminary action for L/M housing are not considered as activities to subsidize or finance new residential construction.
- D. Assistance may not be used for income payments for housing or any other purpose. Examples of ineligible income payments include the following: payments for income maintenance, housing allowances, down payments, and mortgage subsidies.

III. In accordance with First Amendment Church/State Principles, as a general rule, CDBG assistance may not be used for religious activities or provided to primarily religious entities for any activities, including secular activities. The following restrictions and limitations therefore apply to the use of CDBG funds:

A. CDBG funds may not be used for the acquisition of property or the construction or rehabilitation (including historic preservation and removal of architectural barriers) of structures to be used for religious purposes or which will otherwise promote religious interests. This limitation includes the acquisition of property for ownership by primarily religious entities and the construction or rehabilitation (including historic preservation and removal of architectural barriers) of structures owned by such entities (except as permitted under this section for rehabilitation and repairs undertaken in connection with public services) regardless of the use to be made of the property or structure. Property owned by primarily religious entities may be acquired with CDBG funds at no more than fair market value for a non-religious use.

B. CDBG funds may be used to rehabilitate buildings owned by primarily religious entities to be used for a wholly secular purpose under the following conditions:

1. The building (or portion thereof) that is to be improved with the CDBG assistance has been leased to an existing or newly established wholly secular entity (which may be an entity established by the religious entity).
2. The CDBG assistance is provided to the lessee (and not the lessor) to make the improvements.
3. The leased premises will be used exclusively for secular purposes available to persons regardless of religion.
4. The lease payments do not exceed the fair market rent of the premises as they were before the improvements are made.

5. The portion of the cost of any improvements that also serve a non-leased part of the building will be allocated to and paid for by the lessor.

6. The lessor enters into a binding agreement that unless the lessee, or a qualified successor lessee, retains the use of the leased premises for a wholly secular purpose for at least the useful life of the improvements, the lessor will pay to the lessee an amount equal to the residual value of the improvements.

7. The lessee must remit the amount received from the lessor under subparagraph (B)(6) of this section to the recipient or subrecipient from which the CDBG funds were derived. The lessee can also enter into a management contract authorizing the lessor religious entity to use the building for its intended secular purpose, e.g., homeless shelter, provision of public services. In such case, the religious entity must agree in the management contract to carry out the secular purpose in a manner free from religious influences in accordance with the principles set forth in paragraph (II)(C) of this section.

C. As a general rule, CDBG funds may be used for eligible public services to be provided through a primarily religious entity, where the religious entity enters into an agreement with the recipient or subrecipient from which the CDBG funds are derived that, in connection with the provision of such services:

1. It will not discriminate against any employee or applicant for employment on the basis of religion and will not limit employment or give preference in employment to persons on the basis of religion.

2. It will not discriminate against any person applying for such public services on the basis of religion and will not limit such services or give preference to persons on the basis of religion.

3. It will provide no religious instruction or counseling, conduct no religious worship or services, engage in no religious proselytizing, and exert no other religious influence in the provision of such public services.

4. The portion of a facility used to provide the public services shall contain no religious symbols or decorations, other than those permanently affixed to or part of the structure.

D. Where the public services provided under (II)(C) of this section are carried out on property owned by the primarily religious entity, CDBG funds may also be used for minor repairs to such property which are directly related to carrying out the public services where the cost constitutes in dollar terms only an incidental portion of the CDBG expenditure for the public services.

PROCUREMENT GUIDELINES FOR CDBG SUBRECIPIENTS

The following procurement guidelines should assist CDBG Sub-recipients in the development of a policy for the procurement of professional services, materials, and supplies. For equipment, a documented analysis of the economic feasibility of purchasing versus leasing must be performed. For on-going professional services and equipment leasing, procurement is to be completed at least every two years. These guidelines are *minimum* thresholds for the Sub-recipient's procurement policy.

Under \$5,000 (professional services, materials, and supplies)

The sub-recipient must obtain at least three (3) verbal bids and document each bid. If the lowest bid is not taken, the sub-recipient must document why and justify the bid that was chosen.

Over \$5,000 (professional services)

The sub-recipient must go through a Request for Proposal (RFP) process, which includes the criteria listed below. Evaluation of these criteria for each proposal must be documented.

1. Competence of offerer and personnel to complete the job
2. Quality and feasibility of technical proposal
3. Ability of offerer to complete job given physical resources and workload
4. Past performance
5. Cost

Over \$5,000 (materials and supplies)

This requires a competitive bidding process of at least three separate businesses. Documentation required.

Minority Business Enterprise Procurement

It is the policy of Franklin County to foster and promote Minority Business Enterprise (MBE) participation in its procurement program, to the extent permitted by law and consistent with the identification of the "best and lowest bidder." A "minority business enterprise" is a business which is at least 51 percent owned by one or more minority group members (including women owned enterprises); or, in the case of a publicly-owned business, one in which at least 51 percent of its voting stock is owned by one or more minority group members, and whose management and daily business operations are controlled by one or more such individuals. For this purpose, minority group members are those groups of U.S. citizens found to be disadvantaged by the Small Business Administration pursuant to Section S(d) of the Small Business Act.

Franklin County has implemented a procurement goal of 25.3% for the participation of minority and women based businesses in the contracting out of County

CDBG/HOME projects.

The process the County utilizes to ensure such a selection process is employed is by reviewing the following items:

- o Bid advertisements
- o Bid specifications
- o List of all bidders
- o All submitted bids
- o Accepted bids

And by ensuring that each of the County's subrecipients incorporates the following practices into their selection processes:

- o Identifying area minority businesses
- o Soliciting those businesses whenever they can be a potential source for supplies or services
- o Dividing total requirements into smaller tasks or quantities so as to permit maximum minority business participation
- o Using the services of the area's Minority Business Development Agency, the Small Business Administration and the State of Ohio's Office of Minority Business Development
- o And requiring that prime contractors take these same affirmative steps with respect to subcontracting.

The County's commitment to ensuring MBE/FFE participation in its HOME and CDBG infrastructure contracts is reiterated in the County's Construction Manual. A manual which emphasizes the importance the County places on equal opportunity, affirmative action, monitoring and assuring that the best and lowest bidder is awarded County contracts.

In addition to the above guidelines, all procurement procedures must adhere to the stipulations described in Federal Regulation 24 CFR 84 *Procurement Standards** (also called OMB Circular A-110). Briefly, these regulations ensure that sub-recipient procurement procedures preclude conflict of interest, ensure that all bids and RFPs submitted are for identical items or services, and assure sub-recipients are providing for free and open competition for all procurement transactions. For sub-recipients who already have procurement policies in place please make sure that the above requirements are consistent with already established policies including dollar thresholds.

* Also, see "A Handbook for CDBG Sub-recipients on Administrative Systems" for general procurement guidelines.

RELOCATION REQUIREMENTS AND GUIDELINES

The Department of Economic Development and Planning, administers all acquisition and relocation activities for HUD-assisted projects and programs.

The Uniform Relocation and Real Property Acquisition Policies Act of 1970, as amended

(Uniform Act), and the HUD Handbook 1378, dated October 15, 1990, require private individuals receiving HUD assistance under HUD Programs to comply with certain acquisition and relocation requirements when the private individual acquires real property for a HUD assisted project, causes the permanent and involuntary displacement of persons as the direct result of acquisition, rehabilitation or demolition, and/or involves a residential tenant that will not be required to permanently move off-site.

Project planning for a HUD-assisted project will require an acquisition/ relocation project evaluation to assist in establishing a budget, ensure technical staff capacity, and to develop the procedures necessary to comply with the Uniform Act acquisition and relocation requirements. The results of the project evaluation will greatly influence the manner, which a private individual will select, acquire and/or rehabilitate sites for a HUD-assisted project. In addition, for each project that involves tenant units, the project evaluation will identify those occupants that will be displaced and those that will be considered nondisplaced. To ensure compliance with current Uniform Act requirements, we have prepared the following brief discussion of the acquisition and relocation requirements for HUD-assisted projects.

REAL PROPERTY ACQUISITION PROCEDURES

The Uniform Act acquisition requirements are found in Chapter 5 of the HUD Handbook 1378, and must be considered if real property is to be acquired for a HUD assisted project. Chapter 5, paragraph 5-1, exempts persons without the power of eminent domain from complying with the full Uniform Act acquisition procedures, providing two conditions are met during the acquisition process. Given private individuals nominally fall within this category, completion of the following two actions when acquiring a site for the project will constitute substantial compliance with the Uniform Act acquisition requirement:

1. Prior to entering into the contract for the sale to purchase the real property being considered, the purchaser must clearly advise the property owner, in writing, that he/she does not have the power of eminent domain under state law, and, therefore, will be unable to acquire the property in the event that negotiations fail to result in an amicable agreement.
2. In addition, the property owner must be informed, in writing, of the estimated Fair Market Value of the property. An appraisal is not required by the Uniform Act procedures (but one may be required by specific program regulations); however, the project acquisition files must include an explanation, with reasonable evidence, of the basis for the determination of "fair market value" of the site.

As noted, both these actions must be done in writing to document a project's compliance. In those cases where there is an existing option or contract to purchase when the application is submitted, the seller of the real property must be provided the opportunity to withdraw from the agreement after the above noted information is provided.

GENERAL RELOCATION REQUIREMENTS

The Uniform Act relocation requirements are found in Chapter 2 of the HUD Handbook 1378, and will basically be a consideration for a HUD-assisted project only if it will involve tenant occupied

units.

Non-displaced persons

Under the Uniform Act relocation requirements, residential tenant occupants who are offered the reasonable opportunity to remain on-site after the completion of the project (generally only rehabilitation or acquisition/rehabilitation projects) are not considered to be displaced. However, there is still a significant relocation obligation involved with these persons. The failure to properly follow the relocation guidelines results in the tenant occupants who move being considered "displaced person" and eligible for full Uniform Act benefits, even if it was not intended for them to move.

Given the significant costs that can be incurred with the relocation process, we strongly suggest that a private individual look for sites that will not involve tenant occupied units. This would include owner occupied sites and sites with vacant structures (but not sites vacated as the result of the project). The attached "Owners Certification of No Displacement" can be used to document that displacement from a vacant rental unit has not occurred as a direct result of a HUD-assisted project.

If you wish to discuss acquisition and/or relocation obligations please contact the County Grants Administrator at the County's Department of Economic Development & Planning, 280 E. Broad Street, 43215.

Section 3 Clause

A. The work to be performed under any construction contract is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701 (section 3). The purpose of Section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by section 3, shall, to the greatest extent feasible, be directed to low- and very low-income persons, particularly persons who are recipients of HUD assistance for housing.

B. The parties to the contract agree to comply with HUD's regulations in 24 CFR part 135, which implement section 3. As evidenced by their execution of the contract, the parties to this contract certify that they are under no contractual or other impediment that would prevent them from complying with the part 135 regulations.

C. The contractor agrees to send to each labor organization or representative of workers with which the contractor has a collective bargaining agreement or other understanding, if any, a notice advising the labor organization or workers' representative of the contractor's commitments under this section 3 clause, and will post copies of the notice in conspicuous places at the work site where both employees and applicants for training and employment positions can see the notice. The notice shall describe the section 3 preference, shall set forth minimum number and job titles subject to hire, availability of apprenticeship and training positions, the qualifications for each; and the name and location of the person(s) taking applications for each of the positions; and the anticipated date the work shall begin.

D. The contractor agrees to include this section 3 clause in every subcontract subject to

compliance with regulations in 24 CFR part 135, and agrees to take appropriate action, as provided in an applicable provision of the subcontract or in this section 3 clause, upon a finding that the subcontractor is in violation of the regulations in 24 CFR part 135. The contract will not subcontract with any subcontractor where the contractor has notice or knowledge that the subcontractor has been found in violation of the regulations in 24 CFR part 135.

E.
