1.0 PROJECT DESCRIPTION & INFORMATION

1.1 PROJECT ACTIVITIES:

What does the project entail? How is it to be done or delivered? Will the project have a long-term, permanent impact in the community? If so, how?

A. SPECIFIC LOCATION:

B. PROJECT COMPONENTS:

C. PHYSICAL DIMENSIONS (if applicable):

D. SERVICES PROVIDED:

1.2 DOCUMENT THE NEED FOR THE PROJECT (in five, one-sentence bulletpoints)

1.3 WHAT ARE THE PROJECT'S PROPOSED OBJECTIVES, PERFORMANCE MEASURES & OUTCOMES? (List up to two, one-sentence bullet point answers for each question)

- What is the objective of the project? – e.g. benefit low and moderate income households
- What is the project's performance measure? – e.g. – the provision of neighborhood sidewalks
- What is the quantifiable outcome? – e.g. 2000 lineal feet of sidewalk will be installed.

3.0 PROJECT SCHEDULE

Begin Date

End Date

3.1 Engineering/ Design

3.2 Bid Advertisement & Award

3.3 Construction

4.0 EASEMENTS OR ACQUISITION OF BUILDING OR LAND (IF APPLICABLE)

4.1 Will there be easements or the acquisition of building, land or right of way?

Yes

No

N/A

5.0 PROJECT ELIGIBILITY BY NATIONAL OBJECTIVES

Your project must meet one of the national objectives detailed in 24 CFR § 570.483. (Low/Moderate Income-Area Benefit; Low/Moderate Income-Limited Clientele, Slum/Blight-Area Basis, etc.). Please describe the national objective applicable to your project, and how your project meets the national objective criteria:

5.1 LOW/MODERATE INCOME NATIONAL OBJECTIVE SERVICE AREA

If the objective for your program/project is a low/moderate area benefit, in what specific census tract(s) and block group(s) will your "service area" be?

5.2 Is the project/program to be located or operated within a township? If so, please list the township(s):

5.3 Is any portion of this project/program to be located or operated within the City of Columbus?

6.0 PUBLIC HEARINGS/COMMENT

The County's Citizen Participation Plan requires applicants to hold at least one public hearing, at either a council or board of trustees meeting, in the community/communities where the proposed project will be located.

About two weeks before the hearing is to occur, Applicant must provide the public with sufficient notice of the local hearing. The following mechanisms must be used to advertise the local public hearing(s):

1. Applicant must ensure an ad is placed in the Daily Reporter, or comparable publication, that indicates a local hearing is to be held regarding the proposed project, and that informs the public of the meeting date, time, and location, and;
2. Applicants must coordinate with local officials and provide them with information to post in public buildings such as jurisdictional buildings, libraries, senior centers, etc. Applicant must provide the County with documentation of the publication for the public hearing. When the local public hearing occurs, it must be documented through meeting minutes, etc.
3. Please attach a copy of the meeting minutes, etc., from your local hearing(s), and the ad that was published to notify the public of the local hearing.

6.1 Are you willing to assist in presenting the proposed activity before the Franklin County Community Development Advisory Board for comment?

YES:

NO:

6.2 If you are submitting applications for multiple projects located within the same township, have you asked the local jurisdiction which of these projects it would like to be prioritized? Please check yes or no, and if there are relevant details you wish to share, please do so in the text box below.

YES:

NO:

Notice of Hearing

Proposed Genesee Avenue Drainage Improvement Project -
Local Public Hearing Notice

The Mifflin Township Board of Trustees and the Franklin County Engineer are holding a public hearing on the proposed Genesee Avenue Drainage Improvement project and proposed use of CDBG funds for this proposed project. This public hearing will be held during the Mifflin Township Board of Trustees meeting at 1:30 p.m. local time on July 16, 2024, at the Mifflin Township OPS Center located at 400 West Johnstown Road, Gahanna, Ohio 43230. Franklin County Engineer's Office staff will be in attendance to review the project and collect questions and comments from the public.

Project Description: This project will install approximately 620 lineal feet of storm sewer pipe, demolition of existing storm sewer structures within the Genesee Avenue and within the right-of-way of an alley to connect to the existing Earl Avenue storm system. All disturbed areas will be restored including road pavements and vegetated areas.

Area residents are encouraged to attend. Comments will also be collected via the Franklin County Engineer's website at: <https://www.franklincountyengineer.org/> Any questions should be directed to the Franklin County Engineer's office at 614-525-3030.

Hello all,

Please see the attached advertisement for the public meeting we will have with you on July 16, 2024. I look forward to seeing you then to discuss the Genessee Ave. Drainage Improvement project. Please feel free to call if you have any questions.

I understand you will have a new Fiscal Officer/Administrator tomorrow. Please let me know who it is, and I will send this to that person as well. if you forward it yourself, please copy me so I have a record.

Thanks,
Jim

GENESSEE AVENUE DRAINAGE IMPROVEMENTS PROJECT

APPENDIX A

1.1 PROJECT ACTIVITIES:

- The project includes the installation of approximately 620 feet of storm sewer pipe, demolition of existing storm sewer structures within Genessee Avenue and within right-of-way of an alley to connect to the existing Earl Avenue storm sewer system. The project will be competitively bid by the Franklin County Engineer's Office and constructed by a contractor. The project will provide long-term, permanent impact in the community by addressing public and private property drainage concerns in the area.

1.2 DOCUMENT THE NEED FOR THE PROJECT (in five, one-sentence bulletpoints):

- Repair a collapsed drainage system.
- Stop premature deterioration of the road due to the road base standing saturated.
- End standing water around residential properties.
- End property owners filling catch basins with dirt and gravel, to stop water from coming to their properties.
- Better drain water away from sanitary sewer lines to reduce the amount of storm water infiltrating into the sanitary sewer lines.
