

INTRODUCING
 the new **GATEWAY
 SIGNAGE**
 Mifflin Township

PRIMARY: Based on the feedback received by the residents and township officials, the newly improved signage has been designed to unify Mifflin Township as a community, as well as acknowledge the association with Gahanna. The Mifflin Fire Department emblem has been placed on the brick base to support this relationship.

SECONDARY: As a more modest solution, secondary signage has been designed to attach to the preexisting Franklin County metal signs. These signs utilize the same design elements as the primary gateway signage, at an appropriate scale for its smaller size.
