APPENDIX E

FRANKLIN COUNTY COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM

INELIGIBLE ACTIVITIES (570.207)

The general rule is that any activity that is not authorized under the provisions contained in this document is ineligible to be carried out with CDBG funds. This part provides guidance in determining the eligibility of other activities frequently associated with housing and community development.

- I. THE FOLLOWING ACTIVITIES MAY NOT BE ASSISTED WITH CDBG FUNDS
 - A. Government buildings used for the general conduct of government, except for the removal of architectural barriers.
 - B. General government expenses, (except as noted in this subpart or under OMB Circular A-87).
 - C. Political activities (partisan)

- II. THE FOLLOWING ACTIVITIES MAY NOT BE ASSISTED WITH CDBG FUNDS UNLESS AUTHORIZED UNDER PARTS III AND IV (Eligible rehab and preservation; special economic development)
 - A. Purchase of equipment
 1. Purchase of construction equipment is ineligible; but lease, depreciation, use allowances (See OMB A-21, A-87, A-122) are eligible. Purchase of equipment for solid waste disposal facility is eligible.
 2. Fire protection equipment is considered for this purpose to be an integral part of a public facility and thus, purchase of such equipment is eligible (570.201).
 3. The purchase of equipment, fixtures, motor vehicles, furnishings or other personal property not an integral structural fixture is generally ineligible, except when it is necessary for the administration of CDBG-assisted activities, or as part of a public service.

- B. Operating and maintenance expenses related to public facilities. The general rule is that any expense associated with repairing, operating or maintaining public facilities, improvements and services is ineligible. Specific exceptions to this general rule are operating and maintenance expenses for public services activities, interim assistance, and office space for CDBG staff. Examples of ineligible operating and maintenance expenses.
 - 1. Maintenance and repair of streets, parks, playgrounds, water and sewer facilities, neighborhood facilities, senior centers, centers for handicapped, parking and similar public facilities. Normally, activities will be considered maintenance if they will reoccur on a regular interval (will need to be repeated within five years).
 - 2. Filling of pot holes in street, repairing sidewalk cracks.
 - 3. Salaries, utility costs, etc. for operation of public works and facilities.
- C. New housing construction or for any program to subsidize or finance new residential construction
 - 1. As provided under last resort replacement housing provisions set forth in 24 CRF, Part 42.
 - 2. When carried out by a subrecipient pursuant to part V,A,(2). Activities to support preliminary action for L/M housing are not considered as activities to subsidize or finance new residential construction.
- D. Assistance may not be used for income payments for housing or any other purpose. Examples of ineligible income payments include the following: payments for income maintenance, housing allowances, down payments, and mortgage subsidies.

III. CONSTITUTIONAL PROHIBITION

In accordance with First Amendment Church/State Principles, as a general rule, CDBG assistance may not be used for religious activities or provided to primarily religious entities for any activities, including secular activities. The following restrictions and limitations therefore apply to the use of CDBG funds:

- A. CDBG funds may not be used for the acquisition of property or the construction or rehabilitation (including historic preservation and

removal of architectural barriers) of structures to be used for religious purposes or which will otherwise promote religious interests. This limitation includes the acquisition of property for ownership by primarily religious entities and the construction or rehabilitation (including historic preservation and removal of architectural barriers) of structures owned by such entities (except as permitted under this section for rehabilitation and repairs undertaken in connection with public services) regardless of the use to be made of the property or structure. Property owned by primarily religious entities may be acquired with CDBG funds at no more than fair market value for a non-religious use.

- B. CDBG funds may be used to rehabilitate buildings owned by primarily religious entities to be used for a wholly secular purpose under the following conditions:
1. The building (or portion thereof) that is to be improved with the CDBG assistance has been leased to an existing or newly established wholly secular entity (which may be an entity established by the religious entity).
 2. The CDBG assistance is provided to the lessee (and not the lessor) to make the improvements.
 3. The leased premises will be used exclusively for secular purposes available to persons regardless of religion.
 4. The lease payments do not exceed the fair market rent of the premises as they were before the improvements are made.
 5. The portion of the cost of any improvements that also serve a non-leased part of the building will be allocated to and paid for by the lessor.
 6. The lessor enters into a binding agreement that unless the lessee, or a qualified successor lessee, retains the use of the leased premises for a wholly secular purpose for at least the useful life of the improvements, the lessor will pay to the lessee an amount equal to the residual value of the improvements.
 7. The lessee must remit the amount received from the lessor under subparagraph (B)(6) of this section to the recipient or subrecipient from which the CDBG funds were derived.

The lessee can also enter into a management contract authorizing the lessor religious entity to use the building for its intended secular purpose, e.g., homeless shelter, provision of public services. In such case, the religious entity must agree in the management contract to carry out the secular purpose in a manner free from religious influences in accordance with the principles set forth in paragraph (II)(C) of this section.

- C. As a general rule, CDBG funds may be used for eligible public services to be provided through a primarily religious entity, where the religious entity enters into an agreement with the recipient or subrecipient from which the CDBG funds are derived that, in connection with the provision of such services:
 - 1. It will not discriminate against any employee or applicant for employment on the basis of religion and will not limit employment or give preference in employment to persons on the basis of religion.
 - 2. It will not discriminate against any person applying for such public services on the basis of religion and will not limit such services or give preference to persons on the basis of religion.
 - 3. It will provide no religious instruction or counseling, conduct no religious worship or services, engage in no religious proselytizing, and exert no other religious influence in the provision of such public services.
 - 4. The portion of a facility used to provide the public services shall contain no religious symbols or decorations, other than those permanently affixed to or part of the structure.

- D. Where the public services provided under (II)(C) of this section are carried out on property owned by the primarily religious entity, CDBG funds may also be used for minor repairs to such property which are directly related to carrying out the public services where the cost constitutes in dollar terms only an incidental portion of the CDBG expenditure for the public services.
